## UJIAN AKHIR SEMESTER

### 1. Output

#### - Sebelum Input

The screenshot shows a software window with a light gray background. At the top, there are standard window controls (minimize, maximize, close). The main area contains several input fields and buttons. On the left, there are fields for 'No. Jual' (containing '1'), 'Tgl Jual' (containing '2023/07/04'), and a dropdown menu showing 'B00001'. To the right of these are fields for 'Kode Konsumen' (containing 'REG001') and 'Nama Konsumen'. Below the 'B00001' dropdown is a row of five empty input fields followed by a '%' symbol. Further down are two buttons: 'Hapus Item' and 'Pilih Barang', followed by an empty input field. In the center is a table with six columns: 'Kd Barang', 'Nama Barang', 'Harga Barang', 'Jumlah', 'Diskon', and 'Total'. The table body is empty. To the right of the table are three input fields labeled 'Total', 'Bayar', and 'Kembali'. At the bottom, there are five buttons: 'Tambah', 'Simpan', 'Batal', 'Cetak' (highlighted with a blue border), and 'Keluar'.
